

Corporate Sponsorship & Industry Collaboration Proposal

"Transforming Student Innovation Into A National Movement"

Partners: Dominova x Sathyabama Institute of Science and Technology

Location: Chennai, Tamil Nadu | **Proposed by:** Dominova Innovation Team

Event Overview & Scale

This initiative transforms a traditional college project expo into a large-scale, innovation-focused ecosystem connecting students, startups, industry experts, and technology communities on one platform. The goal is to build a nationally recognized student innovation movement rather than just a standalone event.

250+ TEAMS	1,000+ EXT. PARTICIPANTS	15,000+ STUDENT AUDIENCE	28 STATES REPRESENTED	75 STARTUP STALLS
----------------------	---------------------------------------	---------------------------------------	------------------------------------	-----------------------------

Event Objectives

- Create high-impact, national-level visibility for student innovation.
- Bring 4 competitive teams from every single state across India.
- Connect forward-thinking students directly with active startup founders and MNC experts.
- Build industry-focused project exposure and robust real-world networking opportunities.
- Develop one of India's most vibrant and visible student innovation ecosystems.

Why This Event Is Different

- **Pan-India Reach:** 4 teams from every state across the nation, competing through State, Zone, and National tiers.
- **Active Startup Ecosystem:** 75 dedicated innovation stalls creating direct avenues for founder networking and MNC expert interactions.
- **Live Media Coverage:** High-production cinematic coverage, livestreaming, engaging social media campaigns, and creative reels.
- **Industry-Oriented Evaluation:** Judging strictly focused on practical, real-world problem-solving rather than theoretical concepts.

- **Legacy & Community:** An annual fixture supported by a vast Campus Ambassador network and cross-college collaboration channels designed to scale up year-on-year.

Event Structure & Focus Areas

Competition Flow

Key Project Categories

- AI & Machine Learning
- Robotics & Automation
- IoT & Smart Systems
- Software & Web Technologies
- Sustainability & Green Tech
- Healthcare & Smart Solutions

Partnership & Collaboration Opportunities

We offer tailored avenues for strategic corporate engagement, high-impact brand placement, and active ecosystem participation.

Corporate Sponsorship Tiers

Silver Partner

Features comprehensive logo placement across official event posters, dedicated social media visibility campaigns, and formal on-stage recognition during primary ceremonies.

Gold Partner

Includes all core Silver tier benefits along with promotional video advertisement slots broadcasted during the event and exclusive access to dedicated participant and VIP networking lounges.

Platinum Partner

Our flagship tier providing premium venue branding, multiple high-frequency digital ad rotations, corporate jersey branding, and direct founder-level networking access.

Startup Exhibition Stalls

Standard Placement

Provides essential venue placement, direct student interaction access, and robust student-facing brand visibility.

Growth Placement

Features strategically optimized venue placement, heightened digital exposure, and broader audience engagement channels.

Premium Placement

Delivers peak brand visibility in high-traffic primary exhibition paths, priority venue layouts, and maximized promotional footprint.

Value Proposition & Deliverables

For Sponsors & Corporate Partners

- **Unrivaled Brand Exposure:** Direct, on-ground interactive touchpoints reaching a targeted audience of 15,000+ students.
- **Media Amplification:** Sustained and trackable digital impressions via high-engagement live streams, viral reels, and post-event highlight reels.
- **Strategic Talent Pipeline:** Direct access to evaluate and recruit top engineering minds and proactive innovators representing all 28 Indian states.
- **Lead Generation & Demos:** Dedicated interaction spaces built for live product demonstrations, software rollouts, and feedback gathering.
- **Institutional Synergy:** Elite opportunities for official MOU signings and long-term academic-industry research collaborations.

For the Innovation Ecosystem

- Bridges the immediate gaps between academic student ideation and contemporary industry requirements.
- Fosters collaborative peer learning models across diverse geographic zones.
- Amplifies the ecosystem footprint of early-stage startups to a young, tech-forward, and motivated demographic.

Expected Impact Summary

STUDENT IMPACT

Delivers real industry exposure, structured innovation recognition, and career-shaping professional networking pipelines for 15,000+ students.

INSTITUTIONAL IMPACT

Secures national academic-industry visibility and cements an innovation-driven leadership position for Sathyabama Institute of Science and Technology.

ECOSYSTEM IMPACT

Establishes a highly visible, self-sustaining annual innovation ecosystem connecting and empowering India's best young minds.
